PROJECTS / OPEN-SOURCE

Online Fashion Stylist | [Link](#)

ASP.NET, C#, Microsoft SQL Server.

Managed creation of 'Online Fashion Stylist Website' project, blending tech with fashion. Used ASP.NET for easy browsing on any device. Organized payment and product info centrally. Kept data secure with encryption. Made it easy to use for everyone. Organized data well for future growth and changes.

YouTube Clone | [Link](#)

HTML, CSS

Built a YouTube-clone with HTML and CSS. Designed it to look like YouTube and made sure it works on any device, showing my web design skills.

Food Order/Cafe Shop Template | [Link](#)

Figma, UI design principles

Designed and prototyped a user-friendly food order and cafe shop template using Figma.

Portfolio Website | [Link](#)

HTML, CSS

Developed a Portfolio Website using HTML and CSS to showcase professional skills, projects, and experiences. Implemented a structured layout for easy navigation, ensuring a visually appealing and user-friendly experience for visitors. Included sections such as About Me, Skills, Projects, and Contact to provide comprehensive information.

Ashirwad academy database Management system

Microsoft Access

This is a database management system used for the managing the data of Academy. This project is developed using the Microsoft Access. This database stores data of Teachers information, fee's structure, courses information and student's information.
